

Organiser's Comments:

Thanks a zill to David Rosen for both checking the controls for me (and picking up the fact that one of the roads is not locked and gated!), and to both David and Miriam Rosen for logistical and arithmetical duties on the night - not an easy task after a pint of the rather fine ale the pub was offering - thanks due to Matthew Cook for the rather fine pub recommendation.

Thanks all for coming along - I enjoyed the planning - wanted everyone to have to think about the merits or otherwise of picking up controls based on their value (rather than just attempting to pick up the shortest route between them all) - I think I manged this. Thanks for all the positive comments. There was one control (8) for which many people wrote down a different answer to the one I had - so I guess there must have been an equivalent sign very close by - however by the time I'd picked up on it, we'd marked and returned most of the maps - on a different night you might have had an extra 10 points!

Pete Sacares
