I tried to make the control points as obvious as possible and, from your comments, I largely succeeded. Police scene of crime tapes did block one small area but luckily did not enclose any controls. A few people had trouble with 29 the blue lamp post, but others found it fine. Possibly it was invisible without a head-torch (yellow on light blue, but with sodium-yellow street lights, the two colours were identical). With a head torch it was obvious!

And the Tanzanian High Commission was 3 doors down from the Botswana High Commission so a few people got the wrong one.

Well done to the leading male and female runners: **Ed Catmur** with a remarkable 720 including visiting one control twice, and **Helen Gardner** with an excellent 530.

Thanks to the band of LOK helpers: Anne Power, Miriam Rosen, Pete Sacares and Glen Jones. Also thanks to the Duke of York pub for their excellent function room and food.

Lost property: One black Adidas running cap - contact Pete Sacares pete@sacares.plus.com.

Next North London Street League will be Thursday 26 January 2012 at Victoria Park organised by CHIG. The next SLOW Street events will be Tuesday 13 December 2011 at Clapham and Tuesday 10 January 2012 in Marylebone.
